BMSA will through innovation and employee engagement, continuously strive to achieve unparalleled quality, delivering customer value and trust in all products and services.

Bridgestone Corporation has established comprehensive policies, measurable objectives and operational procedures and supplied products are manufactured in accordance with these procedures.

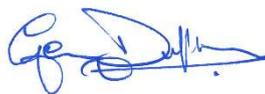

All employees accept their share of responsibility for identifying customer needs and expectations and ensuring that the delivered level of customer service meets or exceeds these expectations whilst complying with all legal and contractual obligations.

BMSA management will take effective action to ensure resolution of problems leading to continual improvement in operating practices. This policy of continual improvement coupled with the provision of adequate human resources and a clear understanding of customer requirements will lead to strengthening consumer confidence in our ability to provide excellent products and service.

To ensure our continuous improvement and delivery of quality, BMSA undertakes to:

- Provide staff access to all procedures and they are trained in their implementation
- Encourage staff to have an ongoing commitment to the application of our policies and procedures
- Enhance our reputation as a customer valued organisation
- Set targets and identify key points in our processes to maintain standards and consistent outputs

The success of our Total Quality Management System is measured by monitoring and reviewing the proactive requirements of our systems to ensure agreed standards of compliance are met and opportunities for improvement are identified.
